JACKSON, MISS, August 18, 2006---Clark and Blake Brennan signed a lease with Kerioth Corporation announcing Clark and Blake Brennan's Royal B Restaurant which will open in or around the last quarter of 2007. The restaurant will be located at the Township at Colony Park on Highland Colony Parkway in Ridgeland, MS. The brothers relocated from New Orleans to the Jackson area after their homes were destroyed by Hurricane Katrina. "Expanding a new concept has been in the planning mode for quite some time, but due to Hurricane Katrina the opportunity to act on those plans has risen to the forefront," says Blake Brennan.

The restaurant will have a New Orleans feel with wrought iron, copper accents, gas lamps and even a quaint outdoor courtyard area giving you the feeling that you were sitting in the heart of the French Quarter. The New Orleans style cuisine will be served by well trained staff in an upscale atmosphere. Ed Krepps, Director of Operations and Mark Serice, Corporate Executive Chef want the dining experience at Clark and Blake Brennan's Royal B Restaurant to be one that you won't soon forget. They promise and will be directed by Clark and Blake to use only the freshest ingredients in creating the traditional New Orleans Cuisine that will be served in the establishment and will also offer an incredible wine list. Both food and wine will be served in a clean, crisp fashion.

"It is in our blood to give phenomenal food and service and to provide the best possible dining experience our patrons have come to expect," says Clark Brennan.

The restaurant will be able to seat approximately 250 guests. Lunch and dinner will be served daily and on Saturday and Sunday a New Orleans style brunch will be served consisting of traditional New Orleans classics such as Turtle Soup, Grillades and Grits and an old family favorite, Bananas Foster.

The 7,000 +/- square foot restaurant will be a welcome addition to the current retailers and restaurants already at the Township, giving the greater Jackson Area a true fine dining establishment.
